

AEX awarded Prospector of the Year 2018 in Greenland

AEX Gold Inc. is delighted to announce that it has been awarded "Prospector of the Year 2018" by the Government of Greenland.

This award is given by the Government to companies or people who have been active in exploration and have shown initiative and innovation, as well as inspiring other companies in how to explore in Greenland. Other requirements for the award are good environmental practices and social responsibility.

This year for the first time, the Government decided to split the award into "Prospector of the year" and "Developer of the year". Our project advancement and exploration strategy left no doubts or questions that needed to be addressed by the Government.

The award was announced during the Greenland Day reception at PDAC on the 4th March 2019 and was awarded to AEX's CEO, Eldur Olafsson, in the presence of the Crown Prince Frederik of Denmark.

Eldur commented "This is a great achievement for our Team and reflects the good relationship we have with the Government in Greenland. We are pleased that our hard work and commitment to operating effectively and responsibly in Greenland has been recognised in this way. We are looking forward to the coming field season and starting our initial programme of work which is part of four phases of development planned prior to a targeted full production at Nalunaq commencing in 2021."
